INTRODUCTION & POLICY BACKGROUND

This Monitoring Report is the latest in a series of annual reports monitoring the supply of employment land within the Bedford Borough Council area. The report takes account of B1, B2 and B8 development which has been granted planning permission, or/and been completed between 1st April 2010 and 31st March 2011.

This report looks at the supply of employment land in the context of the Milton Keynes and South Midlands Sub-Regional Strategy (MKSM SRS) and the East of England Plan which identify the need for each of the constituent districts to audit its own land supply position. The local economic development strategy sets a target of 16,000 new jobs and the provision of up to 75 hectares of additional employment land to 2021 which are reflected in policies CP10 and CP11 of the Council's Core Strategy and Rural Issues Plan.

Table 1 summarises the total area of employment land completed and the outstanding supply of planning permissions, by both gross internal floorspace (sq m) and site area (hectares), for each year from a base date of 2001 for the Growth Area defined in the Milton Keynes and South Midland Sub-Regional Strategy.

Table 2 summarises the total area of employment land completed and the outstanding supply of planning permissions, by both gross internal floorspace (sq m) and site area (hectares), for each year from a base date of 2001 for the Rural Policy Area of the Borough.

Table 3 summarises the total area of employment land completed and the outstanding supply of planning permissions, by both gross internal floorspace (sq m) and site area (hectares), for each year from a base date of 2001 for the Borough as a whole.

Table 4 is in the form of a schedule listing details of all B1, B2 and B8 completions and outstanding permissions for 2010/11 for the MKSM SRS Growth Area.

Table 5 is in the form of a schedule listing details of all B1, B2 and B8 completions and outstanding permissions for 2010/11 for the Rural Policy Area.

METHODOLOGY

The monitoring has been carried out in conformity with the general processes adopted by the other districts in the county.

The development management system is utilised to obtain the basic information on sites and uses, backed up by site visits where appropriate to confirm if the planning permission has been completed (partially or fully). If a site has been granted planning permission subject to a S106, the site is not included in the schedule of outstanding permissions until the agreement has been completed. These may however be listed separately in the year when a planning permission is granted subject to a S106 agreement being finalised, as an indication of potential employment use.

For the purposes of practical monitoring, the Borough Council has concluded that it is sensible to employ a lower range cut-off point which excludes very small sites of less than 0.025ha. Previous monitoring indicates that such sites account for approximately only 1% of the total B1, B2, B8 provision and in monitoring terms are therefore inconsequential.

Both gains and losses of B1, B2, B8 sites are monitored to show development trends and to provide an overall net figure. Site areas given in the report are stated in gross terms in that they include any internal road layout, landscaping, carparking etc which forms part of the scheme indicated on the planning application. The exception to this approach is on larger business or industrial parks where the site area is a net figure excluding general infrastructure and structural landscaping and is therefore a better reflection of available employment land.

From the monitoring year 2005/6 onwards, floorspace as well as site area is recorded in the report. Employment floorspace is broken down into B1, B2 and B8 as well as combinations of these types where information is available, to enable more detailed monitoring. Parking spaces are also recorded.

DEFINITIONS

Definitions of development included and excluded from monitoring.

Included in the listing are:

- all new (greenfield) B1, B2, B8 developments
- redevelopment within the B1, B2, B8 range
- changes of use of non B1, B2, B8 to a B1, B2, B8 use or vice versa
- vehicle service (B2), tyre and exhaust fitting centres (B1) and builders', contractors' and plant hire yards (B8).

Excluded from the listing are:

- expired permissions (these may be listed separately if significant)
- new B1, B2, B8 provision within the operational curtilage of an existing firm, except where this results in an increase in floorspace.

Where the gross internal floorspace is not determined by the application/permission it has been calculated at an appropriate site ratio shown in brackets, eg. (40%).

POTENTIAL EMPLOYMENT SITES

Outstanding S106 Consents

<i>APP. NO.</i>	<i>LOCATION</i>	<i>DEVELOPMENT</i>	<i>GROSS INT FLOORSPACE SQ. METRES</i>	<i>SITE AREA HECTARES</i>
0102199OUT	LPH8 N of Bromham Rd, Biddenham	B1/B2 development	25,000 (max)	4.00
