<b>Based on the evidence presented what positive and negative impact will your activity have on equality?</b>				
	Positive impact	Negative impact	No impact	Explanation
Age	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<p>Children's Services are statutory and predominately work with Children and Young People within appropriate professional guidelines</p> <p>The data relates to the overall council workforce. Gender reassignment	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Pregnancy and maternity	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Race	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<p>Cultural competence is a key element of the Workforce Development Strategy.</p> <p>Whilst the numbers involved are statistically too small to make any strong conclusion of a negative impact, the council's workforce data shows that there is a smaller number of Black/Black British employees in the council and they are more likely to be subject to the formal disciplinary process. Furthermore, workforce data shows that Black African female employees within social care disproportionately left council employment in 2016-2017. However there is a greater number of Black/British employees in Children's Services than elsewhere in the council. The workforce development strategy addresses this by promoting awareness of Cultural Competence through training.</p>

### **Summary of analysis**

In preparing this report, due consideration has been given to the Borough Council's statutory Equality Duty to eliminate unlawful discrimination, advance equality of opportunity and foster good relations, as set out in Section 149(1) of the Equality Act 2010.

The equality analysis is based on service data, public consultation and service user consultation.

The equality analysis has identified that the Children's Services Strategy, Workforce Development Strategy, Multi Agency Safeguarding Arrangement and LAC and Care Leavers Strategy/Local Offer set out to reduce inequalities and to focus services on those who most need them. Collecting data on those who access services and in particular parenting services will ensure that those from the identified protected groups are accessing these key services.
