4, Age of Vehicle (Private Hire Vehicle's only):

All Private Hire Vehicles licensed will normally be less than nine years of age (at first licensing and the last date of being licensed). If a Private Hire Vehicle application is submitted to the Council with a request to the nine years of age rule, the vehicle will not be booked in for an inspection and will be scheduled in for the next Sub-Committee Hearing.

Please use the space below to set out what is exceptional about the vehicle that should mean that the normal licensing requirement about the vehicle age should not be applied. *If you need additional space then please use additional paper.*

5, Display of Door Signs, Roof Signs and Licence Plate:

Please provide letters from a few of your clients/potential clients showing an expression from them that they require the use of vehicles without displaying a licence plate, door and roof signs. Please also provide your booking records for the last 12 months (so we can correlate with the client testimonials) . As per Section 4 of the Framework for Consideration of Requests for Vehicle Exemptions below,

“Details of the clients and an expression from them that they do require vehicles without licence plate, door signs and roof signs will be requested. It is the Authority’s normal expectance that vehicles proposed to be exempted will be engaged substantially (i.e. more than 75%) in the provision of the above type of work”.

Please use the space below to write anything else that you would like the Council to take into account when considering this? *If you need additional space then please use additional paper.*

Please set out below any other additional information you think would be relevant to this request. *If you need additional space then please use additional paper.*
