## EXECUTIVE SUMMARY

This report sets out the results of the Borough's housing monitoring survey for 01st April 2017 to 31st March 2018. The survey involved identifying and adding to the housing monitoring system planning permissions granted in the previous 12 months which affect the supply of housing to existing applications that have not yet been completed or expired. Each site was then visited or checked against other information sources (e.g. Council Tax records) to assess house building activity and a summary of the results is outlined below. Housing numbers in this report are viewed against an objective assessment of need<sup>1</sup> completed by the Council as evidence for the new Local Plan which will cover the period 2015-2035. This objective assessment of need does not represent an adopted housing target, which will be part of the new Local Plan once adopted.

## **POLICY BACKGROUND**

The Council has been working on the preparation of a new Local Plan. An Issues and Options consultation took place in January and February of 2014 which started to scope the scale of housing and economic growth which will be needed over the next 20 years. Further consultation took place from October to December 2015 and January to February 2016. A regulation 19 consultation on the Local Plan 2035: Plan for Submission took place from 22<sup>nd</sup> January 2018 to 29<sup>th</sup> March 2018. More information about the plan's timetable can be found on the council's website:

[http://www.bedford.gov.uk/environment\\_and\\_planning/planning\\_town\\_and\\_country/planning\\_policy\\_its\\_purpose/local\\_development\\_scheme.aspx](http://www.bedford.gov.uk/environment_and_planning/planning_town_and_country/planning_policy_its_purpose/local_development_scheme.aspx)

National guidance now requires Councils to determine the number of dwellings required in their area through an objective assessment of the Council's housing needs (OAN). The latest calculation provides an updated assessment for the period 2015-2035 and is the basis on which the Council's five year supply is assessed. In summary the report establishes that the OAN for the Borough over the 20 year period between 2015 and 2035 is 19,000 which equates to 950 dwellings per annum. The document *Bedford Strategic Housing Market Assessment*, which contains the objective assessment of need can be found on our website at

[http://www.bedford.gov.uk/environment\\_and\\_planning/planning\\_town\\_and\\_country/planning\\_policy\\_its\\_purpose/technical\\_reports.aspx](http://www.bedford.gov.uk/environment_and_planning/planning_town_and_country/planning_policy_its_purpose/technical_reports.aspx)

Figures in this report use the OAN for the period 2015-35 as the latest figure available.

The Core Strategy and Rural Issues Plan (2008) strategy has worked well with significant development focussed in the Bedford Growth Area. Until such time as the strategy is changed through the local plan process the focus for the delivery of new development will continue to be the Growth Area with development in the Rural Policy Area of a scale to support the need of local communities. The current strategy will continue to carry significant weight in the determination of planning applications to ensure that housing and other development is directed to sustainable locations in accordance with the NPPF.

## DEFINITIONS

<b>Affordable Housing</b>	The number of dwellings classified as affordable within the application site.
<b>Complete</b>	A dwelling is counted as complete when it is ready for occupation, otherwise it is considered to be outstanding.
<b>Gross Site Capacity</b>	The number of new dwellings to be built on the application site. In the case of outline applications and CPNJ/O applications the gross figure may be an estimate. The total number of dwellings to be constructed will be subject to detailed planning consent which will be determined having regard to the Borough's planning policies.
<b>Annual Comps (Completions)</b>	The number of new dwellings completed on the application site in the monitoring year.
<b>Total Comps</b>	The overall number of new dwellings completed on the application site to date.
<b>Number O/S (Outstanding)</b>	The gross number of units yet to be completed on the site (Gross – Total).
<b>Losses</b>	The number of existing dwellings on the application site that will be demolished as a result of the development. Losses are accounted for in the year that the first completions on a site take place.
<b>Net Supply</b>	The number of units outstanding taking account of future losses.
<b>Net Completions</b>	The number of dwellings completed taking account of the losses which have occurred during the survey period.
<b>Small Site</b>	Application with site area below 0.4 hectare.
<b>Medium Site</b>	Application with site area between 0.4 - 1.0 hectare.
<b>Large Site</b>	Application with site area 1.0 hectare or more.
<b>Table 1</b>	This table demonstrates how the total capacity of dwellings in the borough (total completions and total supply) compares with the objective assessment of need.
<b>Table 2</b>	A list of housing allocations adopted in our Local Plan 2002, Town Centre Area Action Plan 2008 and Allocations and Designations Local Plan 2013 that do not have full planning permission at the time of publication.
<b>Table 3</b>	This table summarises the net housing completions and outstanding supply of planning permissions in the years 2012 to date for the Borough as a whole.
<b>Table 4</b>	Table 4 summarises the current survey, breaking down the total net completions into the Bedford and Kempston urban wards and the rural parishes.
<b>Table 5</b>	Table 5 is a schedule of all the applications surveyed in the current monitoring year, demonstrating the progress in meeting the development targets of the development plan. The applications are listed with the small sites first, followed by the medium and large sites.
<b>Table 6</b>	Table 6 is a schedule of applications which have been granted consent subject to a Section 106 obligation to date.

**Indicator H1: % of affordable houses secured on sites of 15 or more dwellings**

*Local Target: On sites of 15 units or over and in villages having a population of less than 3,000 on sites of 3 dwellings or more the council will expect the provision of 30% affordable housing (CP8 Core Strategy and Rural Issues Plan)*

## Progress:

In the monitoring period, 847 new dwellings were permitted on sites subject to the Core Strategy and Rural Issues Plan policy CP8, requiring 30% affordable housing on sites that met a certain threshold. Of these, 208 dwellings were affordable, equating to 24.6%.

252 affordable homes have been delivered through the planning process in the monitoring period, with 85 being the result of applications for 100% affordable housing and 167 completed through policy CP8 of the Core Strategy and Rural Issues Plan.

(Source: Bedford Borough Council)

**Indicator H2: Number of empty homes brought back into use**

*Local Target: N/A*

## Progress:

In the monitoring period, 88 empty homes were brought back into use.

(Source: Bedford Borough Council)

A separate target is no longer provided for this indicator as it now forms part of the New Homes Bonus calculations.

### Indicator H3: Amount of mobility housing completed each year

*Target: 10% of new housing should be mobility housing*

Progress:

63 mobility units were completed on 9 sites in the monitoring period. This equates to 4.6% of the total gross completions or 5.7% of schemes where policy H34 can be applied. All units were completed through S106 obligations.

4 new planning permissions including a mobility housing requirement were granted in the monitoring period, for a total of 319 dwellings, 45 of which will be mobility housing, secured through a condition, equating to 14.1% of the developments.

**Indicator H4: Number of housing units completed in Town Centre area**

*Target: To increase housing completions within the Bedford town centre area, providing a mix and range of housing types, tenures and sizes*

Progress:

216 units completed in town centre area. A further 43 units were completed in the wider Bedford Town Centre Area Action Plan Area (259 units in total). This shows an increase on previous years, primarily due to the conversion of office space to residential that has taken place in the town centre area over the monitoring period.

## Indicator H6: Progress on Self-Build and Custom Build Housing

Self and custom build housing is housing built by individuals or groups for their own use, either by building the home on themselves or by working with builders.

Progress:

As at 31<sup>st</sup> March 2018, the Council's Self-Build and Custom Build Housing Register comprises 160 individual applications, and 1 association.

In the monitoring period 79 applications were granted planning permission for developments of a single dwelling in the Borough, which although not explicitly submitted as self-build applications, provide potential opportunities for self-build and custom build housing due to the size of development.
