	<p>Planning Authorities are classified as a “specific consultation body” in terms of consultation for local plans. We are also supportive of the commitments made in Appendix 1 to notify adjacent Local Planning Authorities and adjacent Town and Parish Councils of consultation on local plans and CIL and of consultations on SPDs and Neighbourhood Plans if considered to have an interest in the subject of the document.</p> <p>Part 2 of the SCI refers specifically to publicity and consultation in development management, including planning applications. We are supportive of this section in general. However, we would like to request clarification on whether adjoining Local Planning Authorities and adjoining Town and Parish Councils would be notified of applications that have potential cross-boundary impacts. MKC would wish to be notified of any planning applications for strategic sites in close proximity to their border. We also think it would be useful for neighbouring Town and Parish Councils to be notified of any such applications. We recommend that an additional paragraph be added after paragraph 13.25 of the SCI to clarify the instances when adjoining Local Planning Authorities and adjoining Town and Parish Councils would be notified of a planning application.</p>	<p>Agree. The authority uses its discretion to determine when it will notify neighbouring authorities, but it has in the past always consulted neighbouring authorities on applications of significance close to the boundary. This is the same for parish councils in neighbouring authorities. We are content that this could be helpfully clarified in the SCI.</p>	<p>Insert new 13.19</p> <p>Adjoining Local Planning Authorities and adjoining town and parish councils.</p> <p>“13.19 At Bedford Borough Council’s discretion, adjoining local planning authorities, town and parish councils are consulted on applications of significance proposed close to the borough boundary.”</p> <p>Consequential re-numbering of 13.20-13.25.</p>
