

BEDFORD
BOROUGH COUNCIL

Working for **Bedford Borough Council**

Monika Wesolowska

Team Manager Family Support Team

“I started in Bedford as a social worker and have progressed through to a Team Manager now. My team is driven on passion. We all have a genuine desire to get it right for the children and families that we work with. We also have a real team spirit to push each other - we are very supportive and there is always someone who’ll help out if you need it, even on a Friday afternoon!

The relationships built are the most enjoyable bit about working here. I like how the senior leadership team is approachable -we all know each other. I’m also able to go to any of my colleagues for help and support. It’s a really supportive environment that has great relationships with other teams and services. Bedford invests in its workforce for the future. We all have opportunities to learn and try new things, and we’re open and creative in the way we work with children and families.

While there will always be challenges, we will look at what can we do to resolve it together and make it better moving forward.”
