

Sustainable Warmth

Gemma Drake - Environment Officer (Carbon Reduction)

Funding

Total funding £1,881,000.00 from central government

Brings together two fuel poverty schemes:

- LAD3: support for low-income households heated by mains gas.
- HUG1: support for low-income households off the gas grid

BEIS objectives:

- Tackle fuel poverty
- Ensure homes are thermally comfortable, efficient, well-adapted to climate change
- Progress towards the UK's target for net zero by 2050
- Support clean growth and support economic resilience

Eligibility Criteria

Key eligibility criteria:

- 1) The household must be a private domestic dwelling in England with an EPC rating of E, F or G. There is a 30% cap on Band D properties, and with high interest in the scheme and a high proportion of D rated properties put forward already, you may be placed on a waiting list if your home is D rated. If your property's EPC is unknown, it can be determined by the programme.
- 2) The household must have one either i) a household income of no more than £30,000 (before tax or any other deductions) ii) an equivalised income where cost of living is below £20,000 (i.e. after rent or mortgage costs) iii) a household composition (e.g. number of dependents) which stretches income to a position where they would be in fuel poverty.

Measures:

- Should be compatible with SAP – fossil fuel excluded
- LAD3 avg. grant £10k for owner occupiers - £5k for rented properties (1/3 match funding required)
- HUG avg. grant ranges, depending on the property

HUG	F&G	E	D
Electric	£20k	£15k	£10k
Oil/coal/solid fuel	£25k	£20k	£15k
Park Homes	£15k		

Timescales

Scheme finishes March 2023

Pacing is important

- Registrations up until end of December/beginning of January
- Wary of installer capacity
- Realistic customer timescale expectations

Customers to apply via portal – link TBC
