

Practitioner vacancy

Who are we?

Our Approach is all about building those solid relationships with parents and early intervention support in order to give each child the best start in life.

As a setting we understand that in order for practitioners to effectively support our families they must also be supported practically and emotionally.

We are located centrally on Kimbolton road and operate between the hours of 7.30am-6.00pm.

We were inspected in November 2022 and received an outstanding in all areas.

We have a staff team of 23 practitioners and due to expansion from January 2024 we are looking for two special people to join us.

What qualities would we like our new practitioner to have?

A sense of humour and great communication skills is a must!

An excellent understanding of child development.

To be able to develop meaningful relationships with parents in order to support the child.

Ideally, they would currently be a keyworker.

What qualifications would we like our new practitioner to have?

A level 3 qualification is preferable but not essential- we are more than happy to hear from level 2 or very experienced practitioners.

Paediatric first aid

Safeguarding (any level)

What do we do for our practitioners?

We offer a competitive salary

We offer a variety of contracts for 35, 37.5 or 40 hours to help you work around your home life.

We close for two weeks at Christmas and bank holidays- you also have annual leave which can be taken throughout the year.

We have a solid communication network between management and the team, with support for personal development.

We are a large setting which has numerous rooms to allow for smaller groups which benefits both the children and the quality of interactions with practitioners.

We have bacon (or vegetarian) rolls on a Friday morning!

If you would like any further information or to request an application form please email Emma Niro, Nursery Manager on eniro@bedfordgreenacre.co.uk
