Moorfields Eye Hospital 
NHS Foundation Trust

Dear Parent or Guardian,

It can be overwhelming when you first discover that your child has sight problems. There are often many professionals involved in your child's eye care, and it can be difficult to remember who does what, and establish what help or services are available for your child. We hope that this booklet will provide you with answers to many of the questions you may have.

We would like to thank everyone who has contributed to the production of this booklet and hope that the information proves useful.

Statutory Services Across Bedfordshire

Children's Community Eye service

The Community Eye Service provides care for Children 0-16 across Bedfordshire and Luton with a Bedfordshire or Luton GP. They will see young people up to the age of 19 if they are at special school.

The team consists of Orthoptists, Ophthalmologists, Community Optometrists (for an explanation of these roles, please see the Hospital Eye Team section) and Orthoptic Support Workers. The Orthoptic Support Workers screen the vision of all 4-5 year old children attending mainstream schools. Referrals are made by GP's and other health professionals such as paediatricians, health visitors and school nurses. The Orthoptists will see your child regularly to assess their vision, eye movements and whether they use their eyes together. The Orthoptist will arrange for you to see other members of the Eye team as necessary either at the Community Eye Clinic or at the Hospital Consultant Paediatric Ophthalmology Clinic. The Community Eye Clinics are held at Biggleswade Health Centre, Child Development Centre, Enhanced Service Centre Bedford, Flitwick Clinic, Liverpool Road Health Centre and Redgrave Gardens Luton, Shefford Health Centre and Wigmore Lane Luton. Orthoptic vision screening is provided in St Johns, Ivel Valley, Lady Zia Wernher, Chiltern, and Ridgeway special schools. The Community Eye Service liaises closely with the Hospital Eye Team (Paediatric Ophthalmology) at Moorfields at Bedford and the Luton and Dunstable Hospital. In fact many of the team work in both settings.

Child Development Centre (Bedford)

The Child Development Centre (CDC) is an assessment and treatment centre where a multi-disciplinary team of professionals work closely with parents/carers if there is a concern about a child's development. Working in partnership ensures that appropriate intervention is made in order to maximise the child's future potential.

Children may present a range of problems and/or difficulties with:

- Developmental Delay
- Physical (Motor) Delay/Disorders
- Co-ordination
- Speech and Language
- Learning
- Vision and Hearing
- Attention
- Social Skills
- Communication

Statutory Services Across Bedfordshire

Children with Disabilities Team

The Children with Disabilities Team is made up of social workers that work with disabled children and their families. You can ask for an assessment, however this service is based on assessed needs therefore there is no guarantee of a service being offered.

Their role is to:

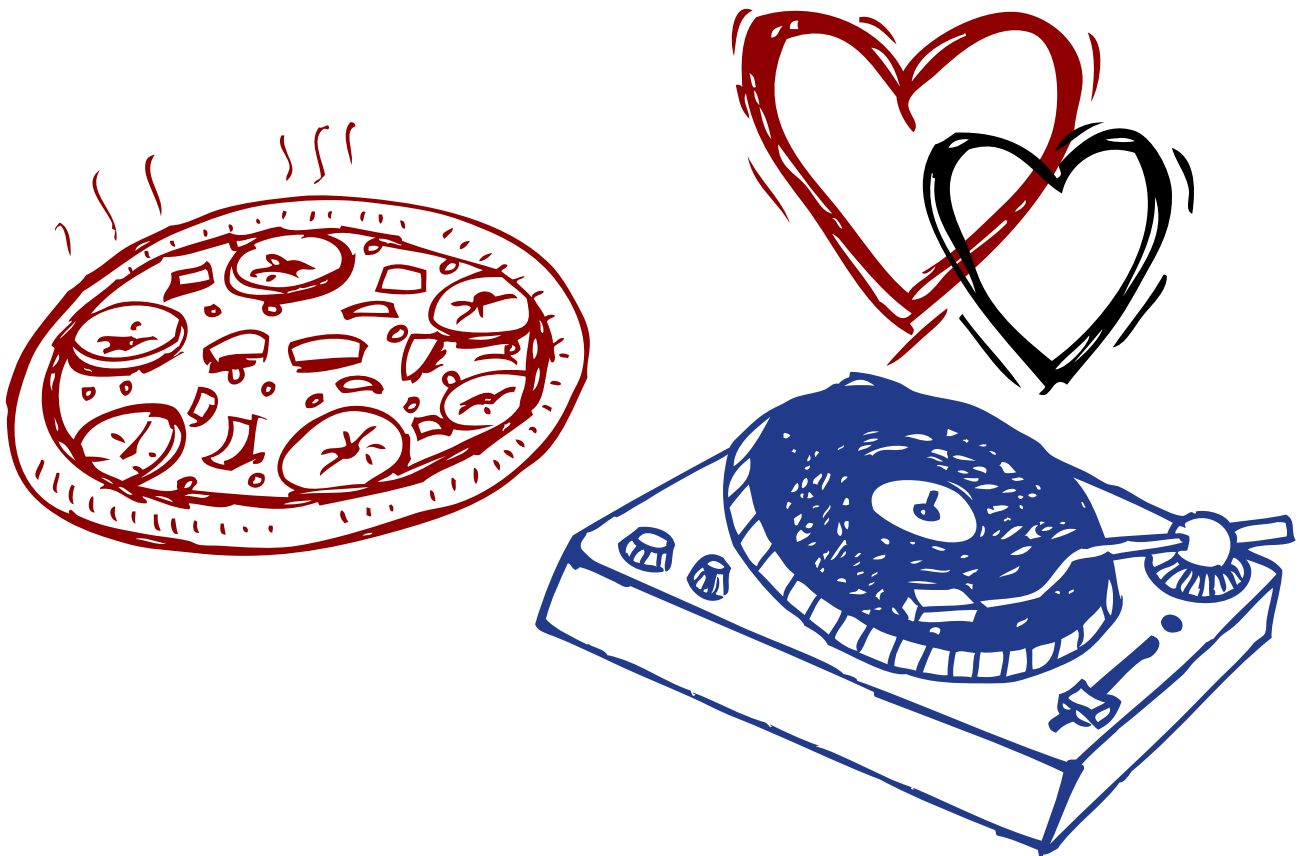

- Assess the needs of children and families.
- Offer support, advice and information.
- Plan a programme of care for children and families when this is needed.
- Liaise with Health, Education, and voluntary organisations to make sure that the help and support offered to families is co-ordinated and appropriate.
- Provide short-term breaks and long-term care for children and young people when this is needed.

Bedford Borough: 01234 267422

Services are also provided at:

✉ Liverpool Road Health Centre
9 Mersey Place
Liverpool Road
Luton, LU1 1HH

Clinics are also held periodically at the special schools.

Hospital Eye Team

There may be more than one member of the team involved in your child's care. On most clinic visits you may see more than one of the team.

The ophthalmologist is a doctor who has specialised in the diagnosis of eye disorders, and where possible provides medical and/or surgical treatment. It is the role of the consultant ophthalmologist to certify children as sight impaired (formally known as partially sighted) or severely sight impaired (formally known as blind) by completing a certificate of visual impairment (CVI).

The orthoptist is a person trained specifically in measuring children's vision. They test the alignment of your child's eyes. They will use different equipment to assess the 3D vision and how the eyes move in different directions. Babies and pre school children can't read letter charts so the orthoptist will assess their vision by other means. They may use pens with smiley faces and shine a harmless small light in your child's eye whilst covering the other eye. They may show pictures of differing sizes. These are all special tests that help measure your child's vision. The orthoptist will liaise with qualified teachers of visually impaired pupils (QTVI's).

The optometrist (also known as an ophthalmic optician) will determine if there is a need for

Statutory Services Across Bedfordshire

your child to wear glasses or contact lenses, they may also assess older children to see if there are any magnifying aids to help them at school.

The vision of children with a significant visual impairment cannot always be improved with treatment, but these specialists will provide you with information about your child's vision and eye condition.

The paediatric nurse is trained to look after children. She is experienced in their care and will be able to talk to you about any procedures that may take place. She may administer eye drops to dilate the pupils. She is able to give you information leaflets and direct you to helpful websites for further information.

The play leader supports the children who visit the clinic. She is experienced in helping children to play and uses play to help distract from the procedures. Children look forward to coming to clinic when there is a friendly happy fun environment to be seen in. This also helps the parents to relax and alleviate anxieties.

Low Vision Service

Optical low vision aids help provide magnification for near or distance tasks. Normally they are hand held devices but sometimes they can be mounted on glasses. Electronic aids may be provided by the Local Education Authority. The optometrist will assess your child's needs and will advise on the magnification that is needed.

Low vision aids are supplied on loan from the hospitals/clinics. They should be returned/exchanged if not used or no longer needed.

Children can benefit from aids as early as 3 years old. It is important for your child to be assessed before they start school.

Statutory Services Across Bedfordshire

Visual Impairment Team (Education)

Part of the Education Department, this service caters for children and young people who have a medical diagnosis of visual impairment. It also caters for pupils who have additional disabilities, some of whom have both visual and hearing impairments.

Referrals are taken from medical personnel, head teachers, educational psychologists and other professionals. Support is available for children and their families from the time of diagnosis to leaving school. The amount of support given is determined by each child's individual needs, following consultation with parents and schools.

The service offers:

- Home-based support and advice for families/carers following diagnosis.
- Support for the pupil, their family/carers and school staff during the transition stage from pre-school to school based provision.
- Assessment of pupil's functional vision and communication skills.
- Information concerning the education and social implications of the pupil's visual impairment.
- Assessment of appropriate mode of communication.
- Advice on the adaptation of the learning environment for a visually impaired pupil.
- Advice on teaching materials/resources appropriate for visually impaired pupils.
- The loan to schools of some specialised equipment, for example CCTV.
- Direct support to assist the development of specialist curricula areas for individual pupils, for example braille tuition or self-help /organisational skills.
- Referrals to, and liaisons with other agencies, including voluntary agencies, both locally and nationally.

Statutory Services Across Bedfordshire

Visual Impairment Team (Social Services)

Bedford Borough Council provides the statutory visual impairment service for people living in Bedford Borough and Central Bedfordshire. It keeps records of everyone living in these areas that have been certified as sight impaired or severely sight impaired by their consultant ophthalmologist.

Your child's ophthalmologist may have asked you to sign a form certifying your child as sight impaired or severely sight impaired. This form (Certificate of Visual Impairment or CVI) will be sent to the Social Services Visual Impairment Team, who will get in touch with you when they receive it to discuss any queries you may have, and will offer your child an assessment. Registration is voluntary, but by agreeing for your child to be registered the council can monitor numbers of visually impaired children and plan services accordingly.

The assessment carried out by a Rehabilitation Officer will also provide information, advice, practical help, and support to children who are having difficulties caused by impaired sight, and to their families and carers. More specialised support can involve mobility and rehabilitation training both within schools and at home.

The team works with other agencies including:

- Education
- Child Development Centre (CDC)
- Schools and Colleges
- Other Social Services Teams
- Sight Concern Bedfordshire
- Royal National Institute of Blind People
- Guide Dogs
- Self-help Groups

Even if your child is not registered you can still request an assessment if he/she has a significant sight loss that cannot be corrected by glasses. In order to keep records up to date and to be able to provide you with accurate information, it is important that your contact details are correct. Please notify the team of any changes.

Local Services

Parent Partnership

Education Health Care Plans will replace Statements of Educational Need in September 2014. Parent Partnership can provide guidance through this process and assist in getting the correct support in place for your child. Free confidential support for parents and carers of children with special needs.

Bedford Borough 01234 276267

Central Bedfordshire 0300 300 8088

Sight Concern Bedfordshire

Sight Concern Bedfordshire is a local charity offering a range of services to enhance the independence and quality of life of blind and partially sighted people throughout Bedfordshire and Luton.

Two resource centres, one in Bedford and another in Luton provide access to a wide range of aids and equipment for independent daily living. There are opportunities to try before buying. Examples of stock include games, talking watches, large print computer keyboards, large print calendars, electronic aids, key ring voice recorders, mobile phones etc. They can also provide general information and signposting to other relevant agencies/services.

The 'News and Views' newsletter is offered in a range of formats and includes an Eye Spy section for younger readers and their families. Children with sight loss and their families can also come along to the Luton office on the first Saturday of every month between 10am-12pm. This is an opportunity to meet other families, get information and share experiences. Sight Concern also run the Low Vision Service in Bedford and Luton.

Sight Concern Bedfordshire offers a range of services for adults, children and young people, for the current details ring  01234 311555 or go to our website  www.sightconcern.org.uk

Local Services

Special Needs Action Panel (SNAP) Central Bedfordshire

A forum (made up of parents and carers of people aged 0-25 with special educational needs or disabilities) formed to influence the planning and delivery of local authority and NHS services in Central Bedfordshire.

By providing a way for parents and carers to share their opinions, views and experiences with local service providers it hopes to raise the standard of education, social and health provision within Central Bedfordshire.

-  Bedford Borough: 01234 267422
-  Central Bedfordshire: 0300 300 8000

Financial Information

Cinema Exhibitors' Association Card Concession

The Ceacard is a national card that can be used to verify that the holder is entitled to one free ticket for a person accompanying them to the cinema. For an online application go to:

 www.ceacard.co.uk

Disabled Persons Railcard Concession

Sight impaired and severely sight impaired children over the age of five can apply for a railcard and they and their accompanying adult can receive up to one third off rail tickets.

 www.disabledpersons-railcard.co.uk

Family Fund

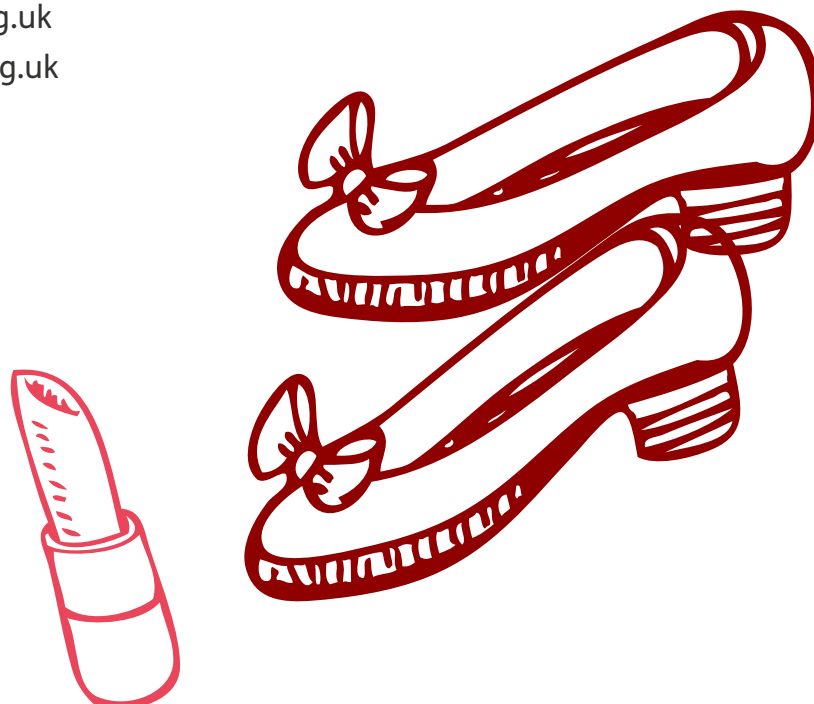

The Family Fund is the largest independent grant giving organisation helping low income families caring for a disabled child. The Fund issues grants that relate to the needs of a child, for instance sensory toys, computers, family breaks etc.

Financial Information

Half Price TV Licence Concession

You can get a 50% reduction on the TV Licence fee if you are severely sight impaired (blind). It is not available for people who are sight impaired (partially sighted).

You need a TV Licence if you wish to watch or record television programmes as they're being shown on TV. This includes the use of devices such as a TV, computer, mobile phone, games console, digital box or DVD/VHS recorder.

In a household where a child is severely sight impaired, the Licence will need to be transferred into the child's name to benefit from this concession. You will need to send a copy of your child's Certificate of Visual Impairment (CVI) or a letter from your local Visual Impairment Team as proof.

 See www.tvlicensing.co.uk or the back of your current TV License for more information.

Leisure Concessions

These are available at various leisure and recreational activities, for example free tickets for the person accompanying you.

Call your local venue in advance for details of any available concessions.

Visually Impaired Children Taking Action (VICTA)

This charity provides grants to children and young people for equipment and services to help them develop socially, emotionally, and educationally. They also hold annual family weekends, youth weekends, and advice on educational issues, emotional support, and general information.

 01908 240831

Reading

Bedfordshire Libraries

Blind and partially sighted children and adults can borrow listening tapes and videos **free** of charge.

For more information contact your local library.

ClearVision

A nationwide lending library of children's books, where the print is interleaved with braille embossed on clear plastic sheets. This enables parents to read the print while the child reads the braille. Membership is free to families.

For details contact:

ClearVision
61 Princes Way
London
SW19 6JB

 020 8789 9575

 info@clearvisionproject.org

RNIB National Library Service

The UK's largest library service. Access all the children's classics plus many more. You can borrow books in giant print (24 point type) or braille or audio.

 0303 123 9999 for more information and how to join

 childrenslibrarian@rnib.org.uk

Reading

Young Calibre

A one off £20 joining fee gives under 16 year olds access to hundreds of children's books in MP3 format, either on CDs, or memory sticks. Alternatively you can stream them online.

Young Calibre Audio Library

Aylesbury

Buckinghamshire

HP22 5XQ

Sports Development (Bedford)

The aim is to provide quality opportunities at all levels of sport, promoting sport as an activity that enables individuals to develop their own performances to their maximum potential, whilst highlighting the personal and social benefits of a healthy lifestyle. Sports development is concerned with increasing sporting opportunities for **all** members of the community. They also run Sport Zone, a weekly sports club run by Bedford Borough Council Sports Development Unit. It provides the opportunity for young people between the ages of 6 - 25 years old who have learning or physical disabilities (and their siblings) to have fun, develop skills and try new sports in our multi-sport and multi-skills clubs.

Swimming

A number of swimming pools in the county have a special needs swimming session, when the entire pool is made available for children, and their families and carers.

Contact your nearest pool for further details.

Tall Ship Voyages

The Jubilee Sailing Trust (JST) is a national registered charity and was established in 1978 with the aim of promoting the integration of able-bodied and physically disabled people through tall ship sailing. You could be sailing alongside the professional crew on the Lord Nelson or the Tenacious.

Applications are welcome from anyone aged over 16. For more information contact:
